*ColorLam™ Melamine panels provide a durable and affordable alternative to high-pressure laminates in a wide range of vertical or light-duty horizontal applications. Our thermally fused melamine is available in a wide range of colors, wood grains and decorative patterns permanently bonded to your choice of high-quality substrates.*

*Roseburg Duramine® Decorative Melamine panels consist of melamine resin saturated decorative papers, thermally fused (TFM) under heat and pressure to a substrate of Roseburg UltraBlend™ particleboard, MDF or CFC veneer core plywood.*

*Duraflake®, UltraPine and particleboard panels unfinished or upgraded with the most diverse offering of finishes available on the market: thermally fused melamine, paper overlays and paint.*

*Melamine on Particleboard Core*

	3/4	49 x 97	2 side		3/4	49 x 97	1 side

*Roddis has many other options in Melamine including wood grains, please call for the options due to the constantly changing inventory.*

*Roseburg Duramine® Decorative Melamine panels are available with a broad selection of Green Core options including SkyBlend™ Particleboard, MDF, and SkyPly™ CFC FSC veneer core. All these cores contain no added urea formaldehyde (NAUF) and may contribute to as many as six LEED credits.*

*VESTA is a specialty particleboard manufactured using a no added urea-formaldehyde resin system. This makes it the optimal choice for additional LEED points, and other no added urea-formaldehyde resin specified projects.*

*Melamine can be applied to many FSC and NAUF cores Roddis is able to provide this through some of our stock and special orders.*

*FSC and NAUF Cores*

Black	1/4 MDF	49 x 97	1 side			
	3/4	49 x 97	2 side			
White	1/4 MDF	49 x 97	1 side			
	1/2	49 x 97	2 side			
	3/4	49 x 97	2 side			

*Roddis also carries veneer core plywood with a white laminate liner applied to it on one or both sides.*
