AC Radiata Pine is a sanded panel that provides excellent exterior performance and appearance. It is best for traditional sanded plywood panel application. The AC pine maintains a smooth A-face and a C-back. The face is free of knots, and open characteristics and allowed only 18 synthetic repairs.

AC Radiata Pine is designated as exterior durability, meaning that it has been pressed with an exterior resin that is able to resist and stand up to the elements.

AC Pine

1/4	49 x 96					
11/32	49 x 96					
15/32	49 x 96					
19/32	49 x 96					
23/32	49 x 96					

BC Pine and Fir: Similar to the AC in strength and exterior durability, only the face is allowed unlimited synthetic repairs, meaning the appearance is not quite as clean.
